

I feel that Indiana's no call list is essential to the rights of people in this state! Since I signed on to the no call list, of my free will, I have been able to eat uninterrupted meals and avoided countless calls from people making minimum wage that are probably part time employees who know only to read the script in front of them. The Indiana no call list is the best thing that Indiana has done for us, the taxpayers of this state, that I can remember. PLEASE DO NOT rule against the "no call list" !! Thank you.
